

A NEW CHAPTER

In 1995 Hay Industrial Sales, a small local distributor, with a full scale imprint division was approached by Rubbermaid Commercial Products Canada in order to start a wholesale division. The decision to forge ahead in this endeavour was any easy one for Don Hay to make with Rubbermaid Commercial Products headlining with Diversey, Big D, 3M and Tolco.

Don had a vision for this new venture which focused on customer service while providing alternatives and solutions for the local distributor. That same focus remains today and I am following in his footsteps to continue to provide the same level of customer service in conjunction with providing the alternatives distributors require. Over the years I have dedicated myself to putting together the personnel and infrastructure necessary to enable our small business profile to rival that of manufacturers and large national wholesale

In 2010 MDS starting shipping on a national scale together with strategic distributors. This proved to be a great success. We are continuing our expansion in 2011, and in order to facilitate this, I'm very happy to announce that Dave Meadows has joined our team as Sales Manager. Dave is no stranger to the industry as he was a veteran with Rubbermaid Commercial Canada for over 20 years.

Our new goal is to expand our national presence. We would enjoy the opportunity to discuss new opportunities and solutions with you in the future. You can contact Mr. Meadows at dave.meadows@master-distribution.com or call 416-953-6930

Thank you for your continued support

David Hay President of Master Distribution Services
